WASHINGTON.

YESTERDAY'S PROCEEDINGS OF THE FORTY-SIXTH CONGRESS

SENATE.

WASHINGTON, April 30.—After transaction of some unimportant routine business the Senate resumed consideration of the bill to establish a retired list for non-commissioned officers. Pending, the question was on Allison's amendment to direct the President to appoint annually two colored cadets at large to West Point. After considerable discussion the morning hour expired without action on the bill or amendment, and the Senate proceeded to consider the naval appropriation bill, which, without debate, was read the thrid time and passed. The Senate then took up the regular order, which was the Kellogg-Spofford resolution. Vance, of North Carolina, spoke in support of the resolution but at 3:15 suspended his remarks, and the Senate adjourned on account of the funeral of D. W. Middleton, which was about to take place from the Capitol.

HOUSE.

WASHINGTON, April 30th —Speaker Randall was in the chair when the House met. Ballou, of Rhode Island, from the Committee on Education and Labor, reported back the bill to constitute a Commission to report on the amendment on orthography of public documents. Referred to the Committee of the Whole. King, of Louisiana, gave notice that he would, next Wednesday, call up for consideration the resolutions reaffirming the measure doctrine.

Singleton, of Mississippi, from the committee on appropriations, reported back on the consular and diplomatic bill with the Senate amendments. Amendment increasing the appropriation for consular clerks and amendment in defray of the expenses of the diplomatic commission to China were concurred in. The House then went into a committee of the whole on the private calendar, and when the committee rose the House passed a number of pension bills and a bill for the relief of Chas. Chuton, of New Orleans. Adjourned.

Miscellaneous Telegrams.

LONDON, April 30.—Lord Carlingford has declined the Ambassadorship at Constantinople.

ROME, April 30.—In the Chamber of Deputies yesterday, the vote on the question of confidence in the ministry being taken, the government was defeated by 176 to 153. In consequence of this vote Premier Cairoli requested the Chamber to suspend sittings until the ministry had orders of the King.

WASHINGTON, April 30.—Col. Joseph Segar dropped dead on the steamer George Leary last night, while on his way from Norfolk to this city.

Republican State Convention of California Declared for Blaine.

SAN FRANCISCO, April 30.—The Republican Convention adopted a resolution instructing delegates to Republican National Convention to vote as a unit first and last, and all the time for James G. Blaine, and use all the honorable means to secure his nomination for the Presidency.

Baltimore to Quarantine.

BALTIMORE, April 30th.—A regular quarantine will be established at the Port of Baltimore to-morrow, and continue until Nov. 1st. All vessels, except from ports in the United States north of Cape Henry, will be required to stop at quarantine until examined, under penalty of $500 fine, and $50 for every hour they remain in any position in violation thereof.

P. M. General Key to Resign.

Baltimore Sun.

WASHINGTON, D. C., April, 29—Postmaster-General Key will leave the cabinet. The President has decided to appoint him to the vacant judgeship in Tennessee, though he has not yet tendered him the position. Notwithstanding the prejudice that met his entrance to the cabinet, the Postmoster-General is to-day the most generally popular man in the President's official family, and his resignation will be regretted more than that of any other man. It is stated that Gen. Tyner will be tendered the Postmaster-Generalship, but this is scarcely true, as it would not be considered exactly the thing to have two cabinet ministers from Indiana. Eugene Hale, who declined the naval portfolio at the commencement of the present administration, is also spoken of, but it is stated at the White Housethat the successorship of Judge Key has not yet been seriously considered.

Judge Key to-day telegraphed to a prominent Tennessee republican that if the President offered the position he should accept. The President said today that it would be difficult to find as good a man as Judge Key for the position he now occupied, and that he hated to part with him. Under the new system Judge Baxter, of the U. S. Circuit Court, can hold terms of the District Court until the end of the present admistration, and as the President is so desirous of holding his present official family together until he retires from office, Mr. Key's appointment may be deferred until within a few days of that period.

SECRETARY SHERMAN HAPPY.

Secretary Sherman is a very happy man to-night over the news from Ohio. He has been very anxious to have a solid vote from his own State, and said he did not want the nomingtion unless his own State stood squarely up to him.

Capt. Randolph A. Shotwell.

Durham Plant.

The name of the pure patriot on the State ticket would give additional strength to the cause of Democracy in North Carolina. In nominating him for Auditor the State Convention would honor itself and bestow the nomination upon a man who is worthy and well qualified. All know how fearlessly he condemns the wrong and defends the right. He is independent in all he does and says, and such a man the liberty-loving people of the good Old North State delight to honor.

Free vs. Slave Labor.

Baltimore Sun.

Before the war, under the slave system, the average yield of cotton on the famous Sea Islands, near Charleston, S. C., was from eighty to one hundred pounds an acre. Under the new system and with free labor the average production to the acre has been increased from eighty to two hundred and fifty pounds, and some of the planters last year made a net profit of $100 an acre.

There is a terrible distress in Asia Minor, even within fifty miles of Constantinople. Cattle, sheep and Angora goats are carried off in large numbers by disease. Brigandage, which is almost necessitated by hunger, is on the increase. The country between Angora and Ismidt is becoming a desert. Four thousand people of the Moussoul district have emigrated to Bagdad.

Letters From our Correspondents

HALIFAX, April, 27—The Democratic Convention which assembled at Halifax on 22nd was a quiet business meeting, in which delegates were appointed to the State and district conventions and an executive committee elected. There was no speeches except the remarks of Mr. Wiggins, the chairman, upon taking the chair, and in reply to a vote of thanks tendered him by the convention past before its adjournment. There waere entire harmony in the proceedings, as is shown by the unanimous selection of L. M. Long, Esq., as chairman of the county executive committee. The delegates to the State convention are expressly directed by resolution to go to Raleigh, "uninstructed and untrammelled." This resolution was adopted unanimously. There was no expression of sentiments in regard to the choice of the county for the governorship. It is informed that Mr. Wiggins, the chairman of the meeting is favorable to the nomination of Judge Fowle, from certain remarks which he made upon taking the chair. This was simply his individual opion. On the other hand Mr. Long, who was elected unanimously chairman of the county executive committee was and is an avowed supporter of Gov. Jarvis. It is then clear that there is a difference of opinion down here. The truth is, except the allusion made by Mr. Wiggins, to Judge Fowle, there was no reference to the candidates. This letter is written for the sole purpose of giving the truth. If any gentleman claims us as "his own," he is sadly mistaken. It is certain that we will not be driven into the support of any one.

HALIFAX.

WILLOW GREEN, April 28, 1880.—The nights are a little cool, though warm in the day The cotton crop is about planted in this section, and the acreage a little more than last year 10 or 15 per cent.

But little said as yet about politics, in this county though in due time we will awake up from the deep slumber under which we have been reposing for the last fifteen years, and send a full delegation of Democrats to the next legislature, so much for the Exodus. No one in this county that wants to be Governor, if so he says nothing about it; though we have a few men who would not object to a seat in Congress. We go for the money as well as the country's good.

Your correspondent made a flying trip to Snow Hill to day. Business dull, though the town continues to improve, and I know that all who have had the pleasure to visit the village will say God speed, Dr. Galloway will in a few days complete. A handsome dwelling near the residence of Dr. Jones. Willow Green is improving slowly, but surely Dr. E. H. Hornaday has completed his new office, and R. A. L. Carr Esq. will commence the erection of another fine dwelling in a few days.

E. H. HORNADAY.

Joe Gales.

Elizabeth City Economist.

It is proposed to erect a monument in the Congressional Cemetery at Washington to the memory of Joseph Gales, the editor of the old "National Intelligence." The memory of Joe Gales is dear to a large class of men yet living who derived their opinions upon public matters from the editor of the Intelligence, to be a subscriber to which paper was considered an endorsement of character for respectability and intelligence. The name of Joe Gales and his family is familiar to North Carolina ears. He learned to set type in Raleigh in the office of his father Joe Gales the editor the Raleigh *Register*, published in that place. His father died in Raleigh at a venerable age, and his brother Western R. Gales lived and died in Raleigh, where his ability, his genialty, culture and general intelligence was long appreciated. He was at one time quite prominent for the Whig nomination for Governor. A monument to Joe Gales would honor the memory of a great and good man.

A Word for Tilden.

Chatham Record.

We would, therefore, respectfully suggest to democratic papers and politicians that in striving to secure the nomination of other aspirants they cause cease their unjust clamor against Mr. Tilden. whom a democratic House of Representatives allowed to be defrauded of the high offie to which his countrymen had elected him. Hayes could not have been "counted in" without the assent of the democratic House of Representatives, and we think those gentlemen should receive the abuse so freely bestowed upon the victim of their action.

A New Puzzle with Words.

Boston Traveler.

Students at the Institute of Technology have designed a rival to the Gem puzzle, which is beginning to excite considerable interest about town. Given two words of an equal number of letters, the problem is to change one to the other by altering one letter at a time of the first so as to make a legitimate English word, containing the alteration until the desired result is attained. The conditions are that only one letter shall be altered to form each new word, and that none but words which can be found in English dictionaries shall be used. Here are some examples of the changes:

East to *West*—East, vest, West.
Boot to *Shoe*—Boot, soot, shot, Shoe.
Dog to *Cat*—Dog, dig, fig, fit. fat, Cat,
Milk to *Hash*—Milk, mile, male. mate, hate, hath, Hash,
Road to *Rail*—Road, rood, root, coot, coat, coal, coil toil tail, Rail.
Soup to *Fish*—Soup, soul, soil, foil, fowl, fool, foot, coot, cost, cast, last, fist, Fish

The game is becoming quite popular in railroad offices, as well as in family circles and at firesides, and seems to furnish instruction with amusement.

The Speed of the Bycicle.

The Extraordinary speed of the bicycle has just received a striking illustration in the English match for the 100 miles championship, which took place on April 10, in the Northumberland Cricket ground, at Newcastle. Two renowned 100 mile riders, Higham and Phillips, were not present, but the starters included the well-known names of Waller, Terront, Cann and Lees. Six thousand people witnessed the contest, in which brilliant spurts varied the dogging tactics. The first mile was finished by Waller in 3 minutes 40 seconds, and the last mile was made by the same rider in 3 minutes 42 seconds. Waller made the 100 miles in 6 hours 22 minutes 27 seconds, which is 2 minutes 43 seconds better than the best previous record at the distance—that of Higham. Terront made 98 miles Cann 95, Lees nearly 88. Cann took a five-minutes' rest and Lees one of 26 minutes, but Waller and Terront did not stop at all. The bicycle, in its modern form, seems to have attained as high a rate of speed as any machine driven only by leg power can reasonably hope for.

DR. GRISSUM'S REPORT.

THE HEALTH OF THE INSANE ASYLUM INMATES NOT GOOD.

The Improvements of the Building and Grounds that have been Going on for Three Months.

To the President and Board of Directors of the North Carolina Insane Asylum:

GENTLEMEN:—The health of the Institution for the last three months has not been remarkably good. Neither the officers, employees or patients have enjoyed the usual exemptions from sickness. My associate Dr. Fuller, is being restored to health and usefulness from a protracted and painful illness, and the Steward was for a time too unwell to perform all his official duties. Sevral Attendants have been more or less invalid, and a general physical depression has prevailed through some of the wards.

(Here follows several pages of tabular statements showing the discharges, material circumstances, cured, improved, and unimproved, deaths and the causes.)

IMPROVEMENTS OF BUILDINGS AND GROUNDS.

Since the 1st of January there have been put up 37 wire guards to windows in the wards, besides many repairs of a minor character in the main building and out buildings.

There have been 454 pannels of old fence torn down and reset, mostly with new material, three substantial wagon gates made and hung, the fence of the airing court for the males repaired and made to such other portions of the fencing as was not considering sufficiently decayed as to justify entirely resetting.

Efforts have been directed to the substantial improvement of the grounds. Eighteen acres of the front grounds have been seeded down with Orchard grass—five acres in rear of buildings in Orchard grass and Clover, and about six acres of the bottom land near the road in Timothy and Clover.

The bushes, briers, &c., along the ditches and drains in the rear grounds have been cleared away, much to the improvement of that part of the piece of bottom land below the spring has been ditched, and the wild growth of bushes, briers and cane cleared off, leaving it in fit condition for cultivation.

Some work has been done on the flower plot south of the female wing in the way of manuring, planting out shrubs and sowing down in lawn grass. About twenty-five young elms have also been set out in the rear of the main building near the boiler house.

A good deal of the above work on the grounds has been done by convicts from the penitentiary, except the plowing, hauling, etc., which has been done by the regular employees, the number of which has, however, been reduced.

There have been made and used on the garden over 300 loads of compost, and the general work in the garden is in a more forward condition than usual, and the prospect for a plentiful supply of vegetables is very flattering. All this, however, was done at comparatively little cost upon the appropriation.

There are improvements that ought to be attended to during the year, among which may be mentioned the painting of the wood-work in the wards and other parts of the main building, and also the painting of the wood-work about the kitchen and wash house. The airing courts, that afford so much beneficial exercise to a certain class of patients that cannot be allowed to walk out in the open grounds, are in such a dilapidated condition as to be unsafe for a considerable number, ought to be thoroughly repaired and strengthened. To do this will require new posts and railing and some new plank.

The stables and sheds for the stock are very much ont of repair—indeed the timbers are so rotten in some parts as to render them unsafe for the stock—and ought to be replaced with entirely new buildings more conveniently arranged and more eligibly located.

It is in contemplation to bring more of the land that is under fence into proper condition for grass and clover during the coming summer and fall, most of which can be done by convict labor, but some expense will necessarily be involved in the way of seeds and fertilizers.

The foregoing are important improvements that prudence and economy would suggest should be made at once and are not embraced in what are termed ordinary repairs. Besides these there will be daily recurring demand for repairs of an ordinary character, and which will require an outlay of money for the necessary material as well as occasionally for additional mechanical labor.

To neglect the frequent discoveries of decay in buildings and furniture, or to "patch" these decays temporarily, is bad economy, but the one or the other is the necessary consequence of a want of means for permanent repairs, as it is absolutely impossible to obtain material and employ labor for such repairs without adequate means.

ENGINEER'S DEPARTMENT.

The improvements and repairs in this department for the first quarter of the present year consist in putting steam joints in the boilers; new steam valves to the pumping engine; repairing the washing machines and ironing-stone in the laundry, putting in 50 feet cold water pipe and 50 feet steam pipe in the wash house; repairing the range in the kitchen; putting in a new retort and 50 feet gum hose at the gas house repairing the Cameron pump at Rocky Branch; moving the radiator in the Steward's office; putting the hydrants in order at the stables; repairing and putting in order the pipe-cutting machine and putting in 10 new registers in the wards. In addition to these there have been a large number of repairs of smaller moment, but which occupied much time and some expense for material.

Repairs in this department during the remainder of the year will consist in replacing 1,500 feet of old hot and cold water pipe with new, the contract for which has already been made and the material in place, though not yet paid for. Also a new furnace built and a retort put in, and some plastering done at the gas house.

It will be necessary to put in gate bars at the two large boilers, and about 300 feet of guttering will be required for the outside buildings.

There will probably be other repairs in the ordinary wear and tear not to be anticipated as yet, either in extent or cost.

EXPENDITURES.

The detailed and classified reports of the expenditures for each month of the past quarter are hereby submitted for your inspection. The total amount expended is—

For January,	$ 3,380 06
For February,	3,306 27
For March,	4,074 09

Making a total for the quarter, $10,769.42

This, however, is not altogether a fair average for the entire year, even upon the present economical basis of administration. The Spring and Fall purchases of goods for clothing are yet to be made, and nearly all the fuel for the next twelve months to be paid for. Besides these such needed improvements mentioned as may be considered by your Board imperative will necessariiy enlarge the expenses for the balance of the year.

I beg leave respectfully to submit that the *discount* upon the wages of such employees as necessity enforced last year, as well as the *reduction* of the year before upon the *pay* of the attendants and servants who wait upon the sick and insane, ought to be *restored*. The increase price of provisions bears heavily upon thhse who have families to support, and the enlarged experience and usefulness of those who contantly wait upon the patients deserve a reasonable compensation for the labor and responsibility of this arduous position.

In the future, as in the past, so long as I may occupy my present place, I shall endeavor to administer the duties entrusted to my care, with the utmost regard for your wishes and for the highest good of this Great Charity whose interests are entrusted by the people of the State, under the dispensations of Divine Providence to your oversight and guardianship.

All of which is respectfully submitted.

EUGENE GRISSOM

Four-Fifths of the People Endorsed —The "Mud-Cut Circular.

Charlotte Democrat.

We are not disposed to enter into a discussion with our esteeemed friend of Hale's Weekly who differs with us as to which particular individual is entitled to the credit of selling the Western North Carolina Railroad, or, in other words, who started the movements that got the burdensome elephant off the hands of the tax-payers of the State (if it is really off.) We stated last week who originated the movement that finally resulted in the Act authorizing the sale, and we could probably produce printed and written evidence, and evidence within our *personal* knowledge, to sustain what we said; but in doing so it might seem that we were opposing or favoring particular gentlemen who are represented as wanting or willing to hold the State offices.

* * * * * * *

If the Act authorizing the sale of the Western North Carolina Railroad had not been adopted, our esteemed Hale's Weekly would have been convinced as the next election that four-fifths of the people of North Carolina favared stopping Railroad appropriations and fully endorsed that portion of the "Mud-Cut Circular" which opposed further State to and the Western North Carolina Road. The fact is many of the active politicians saw that no party could be held together and untited in favor of a continuation of State appropriatians, and they gladly welcomed the presence of Northern capitalists, if they did not actually hunt them up and beg them to come forward and help quiet a difficulty. That's the whole truth about the matter.

TEN years is said to have been the time occupied in the famous siege of ancient Troy. Schliemann, the celebrated archæologist, has spent the last ten years in Asia Minor in digging that same Troy up and revealing its wonders to an admiring world. He has recently returned to Athens from the scene of his patient and industrious excavations. He has prosecuted his labor with the same ardor and perseverance which the monks of the Middle Ages devoted to the restoration of classical literature. He began his work in 1870, and has just got through with it. During his researches, he says, he has struggled with formidable difficulties, among which the most troublesome was the large amount of debris under which the ancient city was buried. In a late letter to the St. Petersburg *Golos* the enthusiastic delver into antiquities, says:

It has been necessary to dig down and dig up the ground for more than sixteen yards below the surface. But I am fully recompenced for all my trouble. I found the remains of seven different ancient cities, the last of them was the Ilion of Homer. That city was built by the Æolians, banished from Greece by the Dorians in eleventh century before our era. In one of the buried cities I found many statues of Minerva with the owl's head, whence her name of Glaucopis. In another city were found many images of the divinities. But the most interesting and important of all the discoveries is, of course, the city of King Priam. Every article found in the ruins of that city bears unmistakable signs of having been destroyed by fire and in time of war. There were discovered many remains of human bodies in full armor. I dug out and cleared away the debris from the entire wall that surrounded the city, and also from all the principal buildings. Now I am finishing a large volume in English describing with full details all my discoveries and containing two hundred illustrations of the discoveries. My Trojan collection is now in London, but at the end of this year I shall take it to my villa in Athens, which is fire-proof, built only of maable and iron. I have received large offers for my collection from the United States, England, France and Germany, but I cannot part with it for any money in the world.

A Western View.

An endorsement by the people of the men who risked their political lives in causing the sale of the Western North Carolina Railroad—enabling the Democratic party to assure the developement of the State,s resources, and, whilst keeping faith with the people of the West, to relieve our people generally from taxation amounting to millions of dollars—and whose agency in binding the West and the East heart and soul together, has saved the Democratic party of the State from impending destruction.—*Ral. State Jour,*

If that is your plaiform, friend Journal then you ought to hoist the name of Col. Walter Clark for Governor, for we know that he is the man who made the first move that called attention to the heavy taxation for the Western N. C. Road and showed that the State was not able to complete it, which movement eventually resulted in the sale of the Road. His Circular (nick-named the Mud cut Boom) issued last year, had much to do with saving the Democratic party, if it is really saved; and we hope it is. But we presume Col. Clark does not seek or expect the office of Governor.—*Char. Dem.*

MR. TILDEN TALKS.

THE SAGE OF GRAMERCY PARK IS INTERVIEWED.

His Physical Condition is Very Much Declining—He is Uncertain About the Nomination.

NEW YORK, April 27.—Messrs. H. W. Seney and F. C. Dougherty, two lawyers, who are prominent in the town of Kenton, Ohio, recently visited this city and called on Mr. Tilden, at Gramercy Park. The editor of the Delaware (Ohio) *Herald* on their return, had an interview with them regarding the health of the Democratic leader. To a question on this head Mr. Seney sententiously replied that "an administrator would soon be in order on the Tilden estate."

"Yes," remarked Mr. Dougherty, 'we found the remains of a great man."

"Do you mean to say that he is broken down?" asked the Democratic editor.

Mr. Dougherty: Well, you can have the facts and judge for yourself. We called immediately after dinner, about 7 o'clock. Mr. Tilden knew we were Ohio Democrats, and seemed intuitively to realize that we had come to see him as he was. He accordingly, we could see, braced up and tried to appear vigorous and spry. Indeed, it was a useless attempt. It is clear to any one who sees and talks with him that he is a very feeble old man: that his physical strength is gone. His arm, as though paralyzed, hangs limp at his side. His voice was as measured and as feeble as a dying man's. He was nervous, evidently fearing that he could not talk long.

Though we did not advert to his health, this subject was uppermost in his mind and was the burden of his conversation. He said the papers had it that he could not feed himself, and that a campaign would kill him. It struck us that once at least the papers stated the fact regarding Mr. Tilden. His mind, however, was clear, and everything he said was proper and fitting: but it is folly to diguise the fact that he is physically debilitated—in fact, on the verge of the grave—and if he succeeded in surviving the strain and excitement of a campaign, in the event of his nomination, it would be a miracle; and if he should be nominoted and live to be elected President, and there should be any trouble or opposition to his inauguration, it is hardly possible that he could live to be inaugurated. This is a serious fact that must impress itself upon the mind of every one who sees him.

Mr. Seney: What Mr. Daugherty says regarding Mr. Tilden is true. I was utterly suprised. I have been strongly of the opinion that Tilden ought to be the nominee of account of the fact that he was basely swindled out of the office in 1879, after being elected to in by the people by a deceded majority; but after seeing him I not only think it would be a great blunder on the part of the convention to nominate him, but an injustice o himself and a great outrage upon the party. It would be sure death to Mr. Tilden before the close of the campaign, and would hazard the success of the Democatic party, when victory is sure, in the coming presidential contest if the Cincinnatti convention act wisely by making a sound, judicious platform and nominating as a standard bearer a man who is not only a statesman of acknowledged greatness and purity of character, but who is also vigorous and sound physically and not broken down from old age and infirmities. I regret to have to say this of Mr. Tilden, as I wanted to see the great wrong perpetrated upon him and the country in 1876 by the Republican party righted and rebuked in 1880, but in justice must admit that physically he is totally unfit for the contest.

Editor: Did you talk to him about his candidacy?

Mr. Dougherty: Mr. Seney asked him in so many words whether he intended to be a candidate for the presidency; His answer, which struck me as good was in these word, "I do not know i want to do my duty to the Democratic party, but have no ambition for it.

Mr. Seney: We asked him about his ability to carry New York. He said he he had no doubt about it. But to be more specific on the difficulties, we suggested the defection of Church and Tammany. "Well, said he, look at the Albany election yesterday. The Church and Tammany influence went with the Republican party, and yet we achieved a victory."

"But," we said, "how about Dorshelmer? He was your friend last time; now he is your enemy."

"That is se," said Mr. Tilden. He continued, "He is mad at me because I had Robinson nominated for Governor instead of himself." And we suggested Sanford E. Church and his influence, "who say they will not support you."

"Sir," said Mr. Tilden, "Church is an ingrate and very ambitious man. I made him all he is, and put him on the Supreme Bench. Now he wants to be President."

"You will notice," said Mr. Dougherty, "that Mr. Tilden does not claim to be able to get the influence of such factions as Tammany, Dorsheimer and Church, but claims that he can carry New York against their opposition."

Mr. Seney remarked: "We had considerable talk, and Mr. Tilden was anxious to leave a good impression on his Ohio callers. He said he thought the Ohio Democracy the finest in the land, and believed they would have fought for him and placed him in the presidential chair when he was elected. His conversation was very interesting, but the heat and exertion fast overcame him and his voice was reduced to a whisper. Seeing he would not hold out long we retired."

Editor: So you think, then, it would not do to nominate him?

Mr. Dongherty: I certainly think that it would never do to nominate him, purely on the ground of his physical condition. If the people should see him they would object to voting for him. We were favorably impressed with his mental powers and breadth of thought, but the papers are right. Tilden is nearly dead.

Here, says the editor, ended our interview with Messrs. Seney and Dougherty, and they left the impression with us that it would be a fatal mistake for the Cincinnati convention to nominate Mr, Tilden.

Thrilling Incident of the Great Fire in the Dismal Swamp.

Reports come from Portsmouth, Va., of terrible devastation and destruction of life and property in Tyrell county, N. C., by the Dismal Swamp fires that have been raging in that section for the past week. The whole Albermarle Sound side is said to have been laid waste by the flames. As they swept through the woods destroying everything in their way, many houses were burned, and in one case so rapid was the progress of the flames that an entire family were burned to death before they could reach a place of safety. The circumstances of this dreadful affair are as follows: Zachariah Owens, a well known citizen of Tyrell county, was engaged in getting shingles from the Swamp on Alligator river, and living near his business in a house entirely surrounded by the woods. Mr. Owens left home on Monday for the purpose of procuring provisions. He had not gone far before he saw that the flames were approaching so rapidly that his house and family were in great danger, and he retraced his steps to endeavor to save them. He reached home and hurried his wife and three little children away in the vain hope of reaching the main road, thereby leaving the swamp and the flames behind them and saving the lives of those dear to him; but the effort proved abortive, and they were overtaken by the flames in the swamp, midway between their home and the place of refuge, and the entire family, consisting of father, mother, and three children, were burned to death. The following day a party of citizens was formed and a search was made for the bodies. They were found all together in a narrow path in the swamp, the mother with the infant pressed on her breast, the father and the other two children lying near by.

Rich Iron Ore.

Chatham Record.

We are pleased to learn that Mr. Lobdell was so well satisfied with the outcropping of the veins of iron ore on the Snipes land that he has made a conditional trade for it. He has already put a small force at work testing some of the veins, under the superintendence of Mr. Gilmore, a Schotchman of great experience in mining matters, who says that it is the richest magnetic iron ore that he has ever seen. We sincerely hope that a "bonanza" has been found in our county.

Killed Himself.

Chatham Recor l.

We regret to learn that a young man named John Lewis, of Handley township in this county, committed suicide last Monday by shooting himself with a gun. On the morning of that day the family noticed that he ate no breakfast, and shortly afterwards went off with his gun, but still no one thought of his killing himself. He did not return home that night, which alarmed the family and a search was made for him, and Tuesday his dead body was found about two miles from home, his gun lying by his side with one barrel discharged and a mortal wound in his breast.

A love affair is said to have been the cause of his committing the sad deed.

Mr. Herbert Gladstone, the son of the premier, is according to the London Spectator, "not only a strong, calm and lucid reasoner, but has that gayety and playfulness in him which a British audience most loves. In one of his most meetings he got a cordial hearing by telling an admirable story of a kitten offered for sale by a boy who tried the temper of the market first by labelling it a tory kitten, but found no purchaser, and who, when he sold it the next day under liberal colors, as a liberal kitten, defended himself, when taxed with his open recantation of the kittens politics, by declaring, in Lord Beaconsfield's phrase, that a good deal had happened since then, for since then the kitten had opened its eyes."

American Charity In Rome.

The late Dr. James B. Gould, of the United States navy, who was for a long time the popular American physician in Rome, left the sum of $25,000 for the establishment of an institution in the Eternal City which had ben founded by his wife. The institution is known as the Gould Memorium Home and Schools, but as the provisions of Dr. Gould's will do not specify in what way the current expenses of the Home shall be paid, a meeting of the New York Ladies' Association was recently held for the purpose of appealing for subscriptions to meet such expenses. Dr. Howard Crosby, who presided, read an interesting letter from the president of the home, describing the nature of the missionary work and the opposition met by the workers in the institution. A strong appeal was made for a return to be offered Rome for the benefits it had conferred upon the religious world by its religious organization and religious literature. The Home, it was said, had been founded exactly as such institutions have been founded in the United States, A woman had seen something to do and had accomplished it. Her motherly heart had yearned over the children of Rome, and she had tried to help them, and from this the Home had grown up. Mrs. Gould believed that if she took the children and gave them good thoughts and ideas to grow up with they would become men of a better type and would be freed from the slavery of hierarchy. While it was admitted that there were many adventurers abroad who lived upon what they gathered under the pretence of working for Protestanism, it was claimed that the truest and best kind of work was going on in the Gould Home. It was a motherly kind of work, and deserves the warmest sympathy and help.

Fate of the Czars.

The Russian proverb which predicts evil for the rein of any Czar which overpassess 25 years has been curiously sustained by the facts of history. Ivan the Terrible enjoyed 50 years of prosperity on the imperial throne. In the 26th year of his reign his troubles began. His conquests were wrested from him, he lost three successive wives, and his son and heir was murdered. Peter had 25 years of substantial prosperity, but the 10 closing years were shrouded in gloom. Alexander I was among the most fortunate of sovereigns until he had crossed the fatal line. In the 26th year of his reign the river Neva overflowed frightfully, St. Petersburg was threatened with destruction, and a widespread conspiracy was formed against the Czar himself. He left his capital, sick at heart, to die in the distant Climes. His brother, Nicholas, began the Crimean war in the 26th year of his reign, and so lost his prestige, and soon thereafter his life. Finally, it was as he approached the end of a quarter century on the throne that disasters began to thicken around the present Czar. The news of his violent death would not now be anywhere received with surprise, so great is the internal order of his dominion.

BRUIN.

A GENUINE SPECIMEN OF THE GENUS URSUS.

Bear-Fight—Terrific Combat at the Cincinnati Zoological Gardens.

Cincinnati Commercial.

It was found necessary yesterday to repair the polar bear water-tank at the Zoo, and for the purpose the brown bears were driven into the right compartments, so that their pit could be occupied by the white specimens of the genus ursus temporarily.

One of the iron doors of the compartment not being fully closed, resulted in one of the small brown bears discovering what he considered intruders in his family's domain. Every time one of the visitors passed this opening he rammed one paw through and tried to give him a swipe. Finally the whole polar, after making several go-as-you-please laps around the pit, seemed to have definitely settled upon a plan of action. When making the next circuit the war-like paw stuck out as before. In a second he grasped it and dragged its owner through the narrow opening into the pit. Those who saw the fight say that it was terrific while it lasted. The contestants were unevenly matched, but, nevertheless, the little brown bear stood up to the work with admirable pluck. Up and down the pit they went in the deadly struggle, the little fellow scoring the first point by bringing blood from the polar's head, for which he received a rap that made his teeth rattle, and knocked him about ten feet. They came together again like a flash, and quicker than thought the polar rose on his hind-legs with his enemy in his embrace. As the pressure was applied, the bones could be heard to crack. Presently the hug relaxed, and a dying bear dropped to the pavement. The polar now for the first time seemed fully enraged, and with great leaps jumped up and down on the prostrate foe, uttering deep, hoarse growls that called forth an answering chorus from all the animals surrounding. He at last held the carcass down with one paw and commenced rending the bear with his teeth. The keeper, who had opened the doors, making a passage-way through to the polar's quarters, now went to work with a long, pointed iron rod, succeeded in driving the polars back to their quarters, when he immediately let down the doors. The victorious animal thirsted for more gore, and in his efforts to gratify the desire exhibited almost human intelligence. Placing one paw against the iron door, he would push on it as if raising a window. Twice it yielded partly, and, holding it in position, he would lower his head sideways and look through the opening; but when he attempted to get under it a relaxed hold would return the door to its place. On the last trial he raised it, and with the assistance of another paw gave it another lift, and was half-way through into the adjoining pit before the keeper could drive him back. The door was then securely fastened to prevent a repetition of the proceeding. For the next half-hour the polar continued trying to get through, and at last gave it up as a bad job.

Mosley's is the most attractive place to visit in Raleigh. In connection with the confection department, you will find a nice retreat for ladies and gentlemen. A saloon for their special benefit with all the delicacies of the season. A dining saloon. What Raleigh needs and what the good people ought to sustain. You can get oysters served in any style. Birds, Beefsteak, Ham and Eggs, Sausage, Coffee, Ice Cream Cakes, Pies and Milk. All are invited to pay his institution a visit.

Plenty of Riflemen.

There are plenty of applicants now for positions on the American rifle team to go to Ireland in June and shoot in the international long-range match. When this long-range shooting was first introduced at Creedmoor, New Yorkers having the only range for practice, furnished the members of the team, and New Orleans having established ranges and produced riflemen, some of whom at least are likely to displace an equal number of the New York riflemen who have heretofore carried off the honors. Philadelphia is about to get a range similar to that at Creedmoor.

DAILY NEWS

SATURDAY, MAY 1, 1880.

GEO. C JORDAN, Editor and Prop

THE prospects for an early adjournment of Congress are not as favorable as some would wish. There are no less than 1,019 bills on the calender of the House reported favorable, 100 more in the hands of committee ready to report, and Congressman every day offering scores of new bills to the already long list.

DEMOCRATIC sentiment on the Presidential question at Washington is calm and serene, according to the *Herald's* correspondent. The Democratic Congressmen are said to believe that Mr. Tilden is out of the race; that the Cincinnati Convention will act wisely, and that the Chicago Convention will blunder. One Democratic leader is reported as saying: "We are no longer a merely personal party, but our opponents have not been able to rid themselves of the ex-President. A merely personal party, cannot hope to succeed against a party which is not merely personal. Our candidates are not fighting each other, the party is harmonious and the New York quarrel amounts to nothing, as Mr. Tilden is out of the way.

There was a large sale of lots in New York city last Tuesday, at the order of the Mutual Life Insurance Company, which shows how real estate compares in value to-day with what it was before the late panic. The prices realized were double what the property would have brought in 1874, showing an increase in the value of real estate of 1,00 per cent. It is admitted, however, that they were 50 per cent below the prices that prevailed in 1873, before the panic visited us. The officers of the insurance company announced themselves pleased with the result, as they well might be.

There is no doubt that the entire royal family of England is chagrined by the Liberal victory. The Queen shows herself quite sulky at being compelled to receive her special aversion, Gladstone, as Premier. The Prince of Wales, however, is undoubtedly the most displeased of the family going so far as to declare that England is rapidly drifting into a republican form of government. The prince's display of temper, however, is to be excused on the ground that Beaconsfield had promised to increase his allowance in case the Conservative succeeded in getting a majority in Parliament.

The Democratic conventions which have been held so far have, recommended the readoption of the two-thirds rule at Cincinnatti. This is certainly right and proper, and we have no doubt that the rule will be adherd to. Whatever arguments may have prevailed against it in times past, or that may be brought against it in future, it is evident that its abrogation now would be unfortenate. It is often contended that, inasmuch as a majority vote is sufficient to elect, the same rule should obtain in making a nomination: but the two cases are not, by any means, similar. When there are but two candidates in the field, or three, it is proper that a majority of the votes should elect one of them, but if this should be adopted in a convention it might easily happen that a candidate would receive the nomination who would be obnoxious to a large portion of the party. It would be very difficult, however, for a man to be forced on a convention who has not the choice of the two-thirds necessary, as it is always in the power of one-third to prevent it. Besides the next National Convention a majority of the delegates might be from States which could not be depended on at the election. This would be manifestly unjust, and alone would be sufficient argument against any change in the rule. It has been the almost unbroken course of Democratic conventions for a long series of years, and we hope it will be adhered to at Cincinnati.

THIS standard article is compounded with the greatest care.

Its effects are as wonderful and as satisfactory as ever.

It restores gray or faded hair to its youthful color.

It removes all eruptions, itching and dandruff. It gives the head a cooling, soothing sensation of great comfort, and the scalp by its use becomes white and clean.

By its tonic properties it restores the capillary glands to their normal vigor, preventing baldness, and making the hair grow thick and strong.

As a dressing, nothing has been found so effectual or desirable.

A. A. Hayes, M. D., State Assayer of Massachusetts, says, "The constituents are pure, and carefully selected for excellent quality; and I consider it the BEST PREPARATION for its intended purposes."

Miscellaneous.

Cuticura

REMEDISE

ave Achieved the most noted success of any Medicines of Modern Times.

Messrs. Weeks & Potter have never doubted the specific properties of Cuticura, Cuticura Resolvent, and Cuticura Soap, for the speedy, permanent, and economical cure of Humors of the Blood, Skin and Scalp. They are, however, astonished at their universal success; for it was to be expected that in the hands of some they would fail solely from spasmodic or ignorant use of them.

They are enabled to say without fear of contradiction that no remedies ever achieved in the short space of one year the number of wonderful cures performed by the CUTICURA REMEDIES.

SALT RHEUM,

Covering the Body for Ten Years, Permanently Cured.

LAW OFFICE OF CHAS. HOUGHTON,
17 Congress Street, Boston, Feb. 28, 1878.

Messrs. WEEKS & POTTER: Gentlemen,—I feel it a duty to inform you, and through you all who are interested to know the fact, that a most disagreeable and obstinate case Salt Rheum or Eczema, which has been under my personal observation from its first appearance to the present time,—about ten (10) years,—covering the greater portion of the patient's body and limbs with its peculiar irritating and itching scab, and to which all the known methods of treating such disease had been applied without benefit, has completely disappeared, leaving a clean and healthy skin, under a few days of profuse application of CUTICURA.

I can and do heartily advise all similarly afflicted to try the remedy which has been so effectual in this case.

Very truly yours,
CHAS. HOUGHTON.

Liver Complaint.

And Dyspepsia Treated by the Resolvent, Gains 3 1-2 pounds on One Bottle.

GENTLEMEN,—I have had Liver Complaint and Dyspepsia, with running sores on the side of my neck, for ten years. Doctors did no good. I have been spending for eight years and it did me no good. Everything I ate distressed me. I got reduced from 179 to 132 pounds. At last I tried the RESOLVENT and it helped me right off, and on one bottle I gained three and one-half pounds. It is doing the business, and I am going for it strong. Yours truly,
JOHN H. ROY.
414 Wabash Ave., Chicago, Ill., Nov. 15, 1878.

NOTE.—Cuticura is admirable assisted in cases of extreme physical weakness, or when the virus of Scrofula is known to lurk in the system, by the internal use of the Cuticura Resolvent, without doubt the most powerful blood purifier and liver stimulant in the world.

Cuticura Soap is an elegant toilet and medicinal assistant to Cuticura in the treatment of all external ailments. For chapped hands, rough skin and tan, sunburn, and the lesser skin troubles, it is indispensable; as a soap for the toilet, the nursery and bath it is the most elegant, refreshing, and healing before the public.

These great remedies succeed where all others heretofore in use fail because they possess new and original properties never before successfully combined in medicine.

The Cuticura Remedies are prepared by Weeks & Potter, Chemists and Druggists, Boston, and sold by all Druggists. Price of Cuticura, small boxes, 50 cents; large boxes, containing two and one-half times the quantity of small, $1. Resolvent, $1 per bottle. Cuticura Soap, 25 cents per cake; by mail, 30 cents; 3 cakes, 75 cents.

STARVATION IN IRELAND. No fear of that while we offer the present inducement. Agents can make $20 weekly, and it will be their own fault if they do not clear $50.

Valuable City lot For Sale.

On Tuesday the 6th day of May next, at 12 o'clock, I shall sell at public sale, at the the court house door in the city of Raleigh to the highest bidder, FOR CASH, the valuable lot and two story brick store house that was conveyed to Benjamin F. Harris by Benjamin A. Cheatham and James I. Cheatham, in a mortgage deed bearing date the 31st day of October A. D., 1873, and on record in the office of the Register of Deeds of Wake county. Said store house is situate on the corner of market square, on Wilmington street, fronting market square, and running though from market square to the next street. It is the store house in which B. F. Cheatham & Bro. (and afterwards John A. Cheatham) did business. Said house and lot will be sold under a decree of the Superior Court of Wake county, subject to the confirmation of court and no possession to be given untill the sale of the property is confirmed, and the purchaser complies with the terms of sale. This lot is valuable and buyers of real estate would do well to examine it before the day of sale.

THE OVAL CAKE

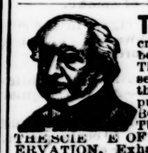
is the most economical form of Washing Soap. All bar or square cakes wear down in use to a large flat piece, too thin to handle and, therefore, wasted; while the OVAL CAKE of

COLGATE & CO'S

"NEW" SOAP can be cut in two, the oval end shaped readily in the hand, and the larger end worn down almost to a wafer without any waste. COLGATE & CO. recommend their

"NEW" SOAP

(Trade-Mark Registered) to Careful Housekeepers, not only as superior in quality, but as in form the most *economical* Soap now made.



THE untold miseries that result from indiscretion in early life may be alleviated and cured. Those who doubt this assertion should purchase the new medical work published by the PEABODY MEDICAL INSTITUTE, Boston, entitled THE SCIENCE OF LIFE; or SELF-PRESERVATION. Exhausted vitality, nervous and physical debility, or vitality impaired by the errors of youth or too close application to business, may be restored and manhood regained.
Two hundredth edition, revised and enlarged, just published. It is a standard medical work the best in the English language, written by a physician of great experience, to whom was awarded a gold and jewelled medal by the National Medical Association. It contains beautiful and very expensive engravings. Three hundred pages, more than 50 valuable prescriptions for all forms of prevailing disease, the result of many years of extensive and successful practice, either one of which is worth ten times the price of the book. Bound in French cloth; price only $1, sent by mail post-paid.
The London Lancet says: "No person should be without this valuable book. The author is a noble benefactor."
An illustrated sample sent to all on receipt of 6 cents for postage.
The author refers, by permission, to Jos. S. Fisher, president; W. I. P. Ingraham, vice-president; W. Paine, M. D.; C. S. Gauntt, M. D.; H. J. Doucet, M. D.; R. H. Kline, M. D.; J. R. Holcomb, M. DAILY NEWS

FRIDAY, APRIL 30, 1880.

Entered at the Postoffice at Raleigh, N. C. as second-class matter

Theodore Hobgood, Esq., is the authorized General Traveling Agent and Correspondent of the NEWS.

Weather Report.

For the South Atlantic States cooler h or west, veering to warmer winds, rising barometer, and clear or partly cloudy weather.

——Dr. Black is absent on a trip to Randolph county where he has gone to dedicate a new Methodist Church.

——A meeting of the Raleigh Light Infantry for drill and other important business will be held Tuesday night.

——The Mayor very properly fin d Dave Jones, colored, $10 and costs for using bad language in public on Market square yesterday.

——A farmer wants to know "if hogs pay?" A great many do not; they take the paper several years, and never think of paying.

——The teachers of the Edenton street M. E. Church Sunday School have decided to hold the annual picnic for the school at Jonesboro on the 12th of this month.

——The Public Treasurer on yesterday issued a drummer's license to Phillips Bros & Co., and Barrett, Cokin & Co., all of Baltimore.

——A cry of murder was heard in the northern part of the city last night about 9 o'clock, though no occasion for the same could be ascertained.

——Mr. Natt. L. Brown, a former citizen of Raleigh and his family, have been spending a week with his brother, Mr. John Brown, returning to his home in Pennsylvania day before yesterday

——Tableaux and charades are to be given at Peace Institute by the Kindergarten next Friday night. Much preparation is being made and the public may expect an entertainment of much attractiveness.

——Rev. Dr. N. H. D. Wilson, P. E. will preside over the Quarterly meeting of Edenton Street Church to-day and will occupy the pulpit of the Church to-morrow morning and evening.

——The anniversary of the Raleigh Bucket Company will be celebrated on Monday night at Metropoliton Hall. Refreshments of every description will be served. The admission is only 10 cents.

——A young lady in this city wears six diamond rings on one finger. Somepody should make her a present of a gold band to wear around her head to prevent the crack in her skull from becoming wider.

——A young man writes to know if he shall marry on $1,000 a year. Certainly; if the girle has that much, dead certain, you ought, with a little extra exertion, to be able to hustle around and get enough for yourself.

——Dr. Blacknall, our worthy and hospitable host, brought with him from Weldon a day or two since an immense sturgeon, weighing 100 pounds. The monster was cut up in the rear of the market, attracting a considerable crowd

——Why is the Vice President of the United States like a bicycle?—*New York Commercial Advertiser.* Because if you William A. Wheeler, See? Ask us something hard. A fellow sufferer at our elbow says, "Probably because both are things the country could do without."

——Mr. Paul Lincke killed thirty-two bull-frogs out of thiry-three shots in about two hours at his pond yesterday. While passing down Fayetteville street with them tied with a string, a Baltimore drummer complacently remarked to his companion, Look, what a string of mocking-birds!

——Can any one of our readers tell us, we mean guess,—for we know—how many pellets, there are in an ounce of the smallest size shot made. An ounce is less than an ordinary load; one and a quarter to one and a half ounces is the ordinary load as used by our sportsmen. We will publish the guess of each one of our correspondents. We do not want any but guessers for there the fun comes in.

——The "Busy Bees" of the First Presbyterian Sunday School were at work again last night under the the "Queen Bee," Miss Bettie Penick, who is the most indefatigable worker we ever saw. The sweets were dispensed with irresistable grace by the little bees, and all the refreshments that were prepared were invisible when the entertainment was finished. The pecuniary results were quite satisfacotry and the labors of the little band were amply rewarded.

——Mr. Wm. Woolcott, who is one of the most widely known of our city merchants, has been directing his attention to the establishment of an extensive wholesale trade at his double store on Wilmington and Hargett streets, and as might have been predicted for him, he has succeeded beyond a reasonable expectation. He now enjoys a large and profitable jobbing trade, and is reaching out within a radius of fifty miles from this city. The attention of the merchants in every branch of trade should be given to the upbuilding of Raleigh as a distributing centre, and anything like an intelligent and well-sustained movement on the part of our merchants in this direction, cannot fail of good results to the community.

Mrs. Winslow's Soothins Syrup.

Rev. Sylvanus Cobb thus writes in the *Boston Christian Freeman*—We would by no means recommend any kind of medicine which we did not know to be good—particularly for infants. But of Mrs. Winslow's Soothing Syrup we can speak from knowledge; in our own family it has proved a blessing indeed, by giving an infant troubled with colic pains, quiet sleep, and the parents unbroken rest at night. Most parents can appreciate these blessings. Here is an article which works to perfection, and which is harmless; for the sleep which it affords the infant is perfectly natural, and the little cherub awakes as "bright as a button."

And during the process of teething, its value is incalculable. We have frequently heard mothers say that they would not be without it from the birth of the child till it had finished with the teething siege, on any consideration whatever. Sold by all druggists. 25 cents a bottle.
